ABOUT ME

Self-motivated and passionate full-stack developer eager to contribute to impactful projects. I am continuously sharpening my skills and expanding my expertise in web and mobile development. Looking for an opportunity where I can apply my technical knowledge and grow as a professional in a collaborative environment.

MY PROJECTS

ERP SYSTEM FOR SCHOOL/ORGANIZATION

Vue.js | Node.js | Express | MongoDB | Tailwind CSS

I built a custom ERP system that helps businesses streamline their operations, improve productivity, and manage their resources more efficiently — all in one place. It includes modules for inventory, HR, and customer management. Automated key business tasks like attendance tracking. Designed admin dashboards for real-time data visibility and control.

FOOD E-COMMERCE WEBSITE

*MongoDB | Express.js | **React.js** | Node.js (MERN Stack)*

Developed a fully responsive food e-commerce platform that allows users to browse food items, add them to cart, and place orders online. Users can browse food items, add to cart, and place online orders easily. Implemented category filters, product images, and a functional checkout flow.

COMPANY PROFILE WEBSITE

Fimga | React.js | Tailwind CSS | PrimeReact

Designed the complete UI in Figma and developed a responsive website to showcase company services and identity. Included sections like About Us, Services, Team, Testimonials, and Contact. Focused on clean visuals, intuitive layout, and mobile responsiveness.

DATA ANALYSIS DASHBOARDS

Qlik Sense | Vue.js | Chart.js | ECharts | Tailwind CSS | REST APIs

FAKE NEWS DETECTOR

Python | Scikit-learn | Pandas | NLTK | Jupyter Notebook

WEATHER FORECAST WEBSITE

HTML, CSS, JavaScript, OpenWeatherMap API / REST API

YOGA WEBSITE

HTML | CSS | JavaScript
